Patient: Dana Whitfield DOB: 08/02/1986 MRN: MFG-448120

EMERGENCY DEPARTMENT PHYSICIAN RECORD

Date of service: 03/14/2025 Arrival: 18:42

Attending physician: Priya Raman, MD

Chief complaint: Neck pain and headache after a motor vehicle collision.

History of present illness: 38-year-old restrained driver, rear-ended at a stoplight at about 17:30 today. Airbags did not deploy. Reports neck pain 7/10 radiating to the right shoulder, and a headache. Denies loss of consciousness, chest pain or abdominal pain.

Past medical history: Low back pain in 2024, resolved. No prior neck injury.

Vitals: BP 138/86, HR 92, Temp 98.4 F, SpO2 99% on room air.

Exam: Tenderness over the cervical paraspinal muscles C4-C7, right more than left. Range of motion limited by pain. No midline tenderness. Neurologically intact. Lumbar spine non-tender.

ED course: Ketorolac 30 mg IM given at 19:10 with partial relief. CT cervical spine ordered.
